

CONTRACT OF EMPLOYMENT

THE PARTIES TO THE CONTRACT

Employer: Integrated Astromechanics Corp.

Employee: [Your name here]

JOB TITLE

Scientist

JOB DESCRIPTION

Your job is to acquire Tech II/III BPCs and to sell them to the corporation at designated locations. Deliveries will be made once per week as a minimum unless otherwise coordinated. If you choose to generate the BPCs yourself, you may make use of our POS facilities at your leisure. However, with the exception of the required BPOs, you are responsible for obtaining the items necessary for invention or reverse engineering at your own expense. You will be paid via the in-game contract system. The applicable reference prices will be equal to the statistical minimum cost of creating the BPCs plus a publicly announced share of the potential profit selling the corresponding Tech II/III items as determined by our manufacturing spreadsheet. You may also use our POS for private activities; such use may not interfere with official operations. Please refer to our forums for details.

Research for individual corporation members such as our Industrialists is not governed by this agreement but subject to private negotiation.

SIGNATURES
